

Seventeen Years in the Making...

In 1991, Café Oggi was conceived with the sole purpose of integrating a little slice of Italy's splendor into the heart of McLean.

From wine tastings to food festivals, in excursions through Tuscany to avant-garde expansions engineered and imported directly from Europe's very own Italian jewel, McLean's neighborhood fine dining café has redefined Italian cuisine over transcendental lengths.

Seventeen years later, Café Oggi has single handedly infused an authentic culture full of vibrant flavors, colorful traditions and exotic sophistication into a small North American town in an effort to create an atmosphere full of diverse personal communication and social interaction by formulating ingenious variations of house-concocted recipes as the means and most fundamental common denominator to an enlightening culinary equation.

Through artistic means and break through sensory explosions, Café Oggi has launched a new forum in which its guests can share the love for Italian fare while exchanging a mutual fascination of the search for undiscovered gastronomic secrets.

Today, Café Oggi reflects a pure and newfound combination of Italy's old world sophistication with McLean's contemporary novelty. This fabrication is not only refreshingly spectacular but excitingly youthful.

Join Café Oggi in celebrating its 17th year and in experiencing a sparkling new generation with endless possibilities.
